From the creators of Toast®

The Boom Box™

Essential Mac software for iPod®

**Imagine More.
Expand your
iPod® experience.**

Capture streams and podcasts

Convert LPs and tapes

Create mixes and audio books

More than just Music

Convert the tunes from old LPs and tapes. Capture Internet streams and download podcasts to listen to whenever you want. Automatically create instant playlists. Turn any text from e-books, Web pages, and news feeds into an audio file and send to iTunes® with one click. Expand your iPod experience with this essential Mac software collection – The Boom Box™.

Convert LPs and Tapes

Convert your favorite LPs and tapes to digital with CD Spin Doctor®

- Import music from a turntable or cassette player
- Record live audio performances
- Detect tracks automatically
- Reduce clicks, crackles and hiss to enhance sound quality

Create Instant Playlists

Pick any song, artist or album, and instantly create great sounding mixes with MusicMagic™ Mixer Premium

- Automatically analyzes each track's unique sound wave
- Create original playlists from songs with similar acoustic personalities
- Personalize your playlists to fit your mood

Download Podcasts

Download podcasts on thousands of topics automatically with iPodderX™

- Browse and search the largest directory of podcasts from around the world
- Subscribe to your favorites for fresh content delivered daily
- Supports audio, photo, and movie podcasts

Capture Audio

Capture and save the audio from an application with Audio Hijack™

- Save Internet music or radio shows to enjoy at any time
- Capture sound clips from your DVDs
- Set timers to record even when you are away from your computer
- Turn your player into an alarm clock and wake up to your favorite tunes

Speak It

Convert any written document, e-mail or Web page to an audio file in iTunes using iSpeak It

- Convert text, PDF or HTML into spoken audio
- Create your own audiobooks
- Includes built-in support for Google news, weather reports, RSS feeds, and blogs

Requirements

- Macintosh computer
- Audio input capability (for recording with CD Spin Doctor)
- Mac OS X v10.3.9 or later
- iTunes v4.7 or later
- 50 MB of free disk space to install
- 1 GB temporary free disk space for usage

Optional

(but it makes The Boom Box a heck of a lot more fun):

- iPod® (any model)
- Stereo cable (for converting audio with CD Spin Doctor)
- Internet connection (for Internet stream recording with Audio Hijack)

Contents

- The Boom Box installation CD, including
 - CD Spin Doctor recording software
 - Audio Hijack capture software
 - MusicMagic Mixer Premium playlist software
 - iPodderX podcast software
 - iSpeak It text-to-audio software
- Special discount offers for iPod accessories and books
